

RollPlate® **MANUAL 22-4**

Manual Bush Hammering
Tool for Angle Grinders
Easy to use and lightweight tool

About

The bush hammering system Rollplate® Manual 22-4 is a manual bush hammering tool that lets you bush hammer natural stone surfaces (marble and limestone), also allow you to create non-slip strips.

This tool has a universal M14 socket which can be adapted to most angle grinders that have this type of socket. The tips used in the rollers manufactured by Iberdin®, are high quality tungsten carbide tips, which allows them to have a high performance and therefore great resistance to wear.

Its rollers are easy to replace with the possibility of changing the finish by choosing a type: bush hammered or sanded.

Allows you to create non-slip bands about 5 cm wide,

The Rollplate® Manual model comes with an adjustable auxiliary guide, which has a length of 200 mm, which allows a larger work support base, and has a height adjustment capacity of 100 mm.

The Rotating Exterior Protection Ring allows this model to be used inside shower trays, thus creating a non-slip surface quite easily.

Features

Number of Rolls	3
Nº of Tips per Roll	22
Tip Diameter Ø	4 mm
Specifications	Anti-Slip Track Guide, Protection Ring
Fitting	M14
Recommended Speed	1200 to 1600 RPM
Indicated for	Limestone, Marble
